

Transparency in Health Care Prices Act

The 2017 Colorado General Assembly passed legislation requiring greater transparency in provider prices enabling consumers to be better informed. Beginning Jan. 1, 2018 physicians will need to disclose to consumers the 15 most common services they provide and the associated charges when payment is made directly by the patients rather than by a third party. In cooperation with the state of Colorado, South Denver Cardiology Associates is providing health care prices for “health care services,” complying with the Colorado Revised Statute: 25-49-103 – Transparency in Health Care Prices Act.

If you are covered by health insurance, you are strongly encouraged to consult with your health insurer to determine accurate information about your financial responsibility for a particular health care service provided by a health care provider at this office. Most Diagnostic tests and procedures require a Facility fee. We encourage you to contact Centura for that additional amount at 303-738-2764. If you are not covered by health insurance, you are strongly encouraged to contact the Centura Billing Office at 1-866- 414-1562 to discuss payment options prior to receiving a health care service from a health care provider at this office since posted health care prices may not reflect the entire amount of your financial responsibility.
